AI Driven Project
Management
Masterclass

“In my lifetime, I’ve seen two demonstrations of technology that struck me as revolutionary. The first time was in 1980, when I was introduced to a graphical user interface... The second big surprise came just last year.”

— Bill Gates, March 21, 2023

“I have said it before, AI is one of the most profound things we are working on as humanity. It is more profound than fire or electricity, or any of the other big thing we have worked on.”

— Sundar Pichai
Davos WEF, January 22, 2023

“If your PMO still sees its main job as policing deadlines and producing status reports, it’s not wrong — it’s just doing yesterday’s job perfectly.”

— Antonio Nieto-Rodriguez

“AI will not move your organization forward on its own. It moves the organizations that prepared their data, their governance, and their people. The technology is ready but are we!”

— Ricardo Viana Vargas
