i2P2M offers top rated Diplomas in Project Management & PM Certifications for Individuals

ISO/IEC 17024:2012 Accredited Personnel Certification Body

Certificate In Project Management (CIPM) is ISO/IEC 17024:2012 accredited and administered by International Institute of Projects & Program Management (i2P2M).

i2P2M - International Institute of Projects and Program Management, a non-profit company was incorporated in 2008 as a Section 8 company with the vision to equip project leaders, managers and professionals across central / state government, public & private sector companies and research institutions to handle the complexity of tomorrow. It's aim is to build their Knowledge, Competency and Leadership through comprehensive learning with it's application at the workplace, exposure to best practices, relevant case studies, real time computer based simulations of complex project and leadership scenarios and sharing of experience and success stories with industry stalwarts from India and abroad.

i2P2M has two major streams. One stream is in providing the International / Executive Diploma in Project Management (I/EDPM®) in association with the School of Business of The George Washington University, Washington D.C., USA which is a leading university in the field of project management.

The **second stream** relates to administering of nine project management certifications for individuals. The training for these certifications is provided by separate training organisations.

i2P2M has realised it's Vision with astounding success. It has set a new benchmark globally in I/EDPM® it's diploma programs. The 16 Uniqueness of I/EDPM program is at the core of this accomplishment. i2P2M has revolutionised project management by transforming Learning to Competency Development and thereafter its application at workplace resulting in measurable benefits and documentation of the best practices. As on Dec 2025, 2500+ professionals from 182+ organisations have gone through the I/EDPM program held in India and USA.

i2P2M deploys resources from IITs, IIMs, Stalwarts from India & USA and reputed training organisations for the I/EDPM program.

i2P2M is recognised as one of the four global certification bodies for project management. The syllabus for it's flagship credential, the Certificate In Project Management is very comprehensive covering 8 project life cycle phases. The certification methodology is very robust and is the only one globally with negative marking as well as having 4 sections in the paper that must be passed independently.

i2P2M has an Academic Industry Council (AIC) which provides strategic direction and policy framework. The AIC has distinguished individuals from Academia, Industry, R&D organisation and Representatives of Ministry of Power, ISRO, Assocham, IITs & IIMs.

Certificate in Project Risk Management (CrtPRM) Online Exam

From 2011 to 2026 EDPM was a very successful classroom program. EDPM 2020 was the first Online program and was concluded with astounding success. EDPM program is the most unique part time executive Diploma program globally as it transforms learning to measurable results. The knowledge gained by participants is substantial and in last 16 years 185+ organisations have benefited from the experiential learning through this program.

Completion Criteria for EDPM Hybrid program

A participant is required to go through 4 Levels based on online delivery. It would amount to 70 hours of learning, 20 hours of Homework and 25 hours in writing 4 Reports - one report after each module outlining the key takeaways plus areas for their improvement at workplace plus a Final Composite Report of the learnings of the entire EDPM Online program and few recommendations for improvement in participants own workplace.

Methodology

The program is available across all the continents. The participants need to attend the online program which comprises of four, Modules. A participant can choose their local time zone to suit their own convenience.

Level 1 and Level 2 are both followed by an objective, multiple choice Certification Exam on the 4th day which must be cleared. Level 1 has a 2.5 hour exam and Level 2 has a 2 hour exam. The timing to begin the exams shall be 10.30 am as per the time zone chosen by the participant. There are no exams in Level 3 and 4. Re-exam up-to 3 attempts can be scheduled in case if one fails in the first attempt.

Level 3 has two real time computer based simulation programs on Managing Stakeholders and Project Leadership providing experiential learning. Participants gain 4 years of experience in 2 days.

Lectures of various modules will be video recorded which can be viewed multiple times by the participants to clarify their doubts.

Questions can be asked by the participants during and after each session of a module. As it is a global online program, the video/audio/text response will be provided to the participant and will be uploaded in the Q&A library and can be viewed by all of the participants.

After each Level, it is mandatory for a participant to electronically submit a report on i2P2M cloud space highlighting the Takeaways from each of the 4 Modules within 7 days.

The Composite Final Report (CFR) is to be submitted electronically by a participant within 15 days weeks of completing Level 4.

Benefits

▶ 2 days out of 10 days are devoted to carry out experiential learning through real time simulation programs. **One gains 4 years of experience in these 2 simulations.** These simulation programs are used in top 20 business schools and leading companies. The average cost of doing these simulations in business schools is close to US$3000 per person. For EDPM participants it works-out to be 1/6th the cost. **Great Value for Money.**

▶ Organisations will gain tremendous benefits by accepting recommendations as suggested by participants at the end of EDPM Online program.

▶ **The only Executive Education program across the globe awarding 4 major credentials i.e. CIPM certificate in project management, becoming eligible for CSPM credential in project management, CrtPRM certificate in project risk management and the prestigious Executive Diploma in Project Management.**

▶ **The only Executive Education program across the globe transforming Learning to Competency Development to its Application at workplace resulting in measurable outcomes.**

EDPM Hybrid

| Level-1	**Totality of Project Management (TPM)** prepares for the ISO/IEC 17024:2012 accredited Certificate In Project Management (CIPM)

Being a global program participants can choose their local time.

Suggested Timings: 9.30 am to 5.30 pm inclusive of breaks

| Batch 1 - 09 to 11 Jan (Fri to Sun) 2026 | Batch 2 - 06 to 08 Feb (Fri to Sun) 2026 | Batch 3 - 13 to 15 Mar (Fri to Sun) 2026 |

| Batch 4 - 10 to 12 Apr (Fri to Sun) 2026 | Batch 5 - 15 to 17 May (Fri to Sun) 2026 | Batch 6 - 12 to 14 Jun (Fri to Sun) 2026 |

Totality of Project Management (TPM) covers 8 Project Life Cycle Phases, 37 Knowledge Areas and 127 Concepts.
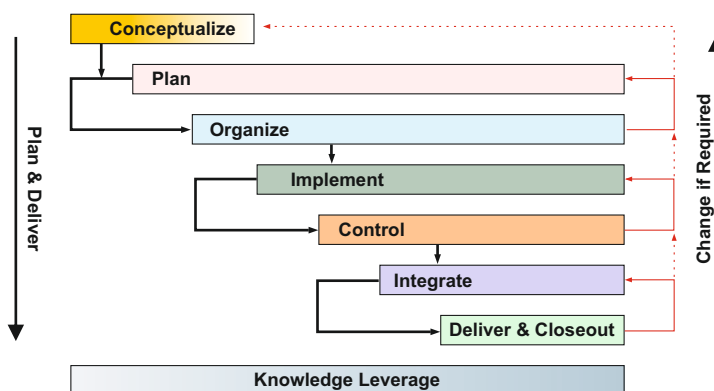

TPM has eight Project Life Cycle (PLC) phases – Conceptualize, Plan, Organize, Implement, Control, Integrate, Deliver & Closeout and Knowledge Leverage. Each phase has been depicted using different colors of varying intensity showing the intensity of the work during that phase. Three additional Project Life Cycle phases Organize, Integrate, Knowledge Leverage were introduced first time globally.

Totality of Project Management (TPM) is most unique globally. Its additional 3 project life cycle phases namely Organise, Integration and Knowledge Leverage added to conventional 5 project life cycle phases used by other global PM associations.

CIPM Exam administered by International Institute of Projects and Program Management (i2P2M) Is divided in 4 independent sections to pass in addition to the minimum % marks for the entire paper in UNIQUE as against only one section only followed by all the global certification bodies. This ensures robustness of the exam testing knowledge of a candidate across the syllabus. The CIPM Examination fee varies from half to one fourth of the fee charged by the other global certification bodies. The training resources for this Level 1 is from outside i2P2M.

Excerpts from NITI Aayog Task Force Report on project management :

"The curriculum to address following knowledge areas for project management and should consider the project from concept to commissioning encompassing all life cycle phases i.e. Conceptualize, Plan, Organize, Implement, Control, Integrate, Deliver/closeout and Knowledge Leverage".

Totality of Project Management is in line with NITI Aayog's above recommendation.

2.5 hour Certificate In Project Management (CIPM) online exam will take place from 10.00 am to 12.30 pm.

Feedback of some participants for Level 1
Totality of Project Management (TPM)

"Live Online program on Totality of Project Management (TPM) that Ruchira Jain taught was very rich in contents. She is an excellent teacher and having rich experience. The training program was strengthened through numerous examples and exercises. **TPM program gets 10 by 10".**

Linda Ottmann
International Association of Project Managers (IAPM), Liechtenstein

"Superb program, superb faculty, 100% satisfied. The programme was arranged nicely. There is lot of contents in Level 1 which is priceless. It must be kept mandatory for any engineer to first go through this course and thereafter he can be selected in Project Department".

P R Parate, GM (PJ), IOC

Knowledge imparted by Mrs. Ruchira Jain was mind blowing, she has arranged the topic in perfect sequence for ease of understanding. All the engineers handling the project / maintenance planning should attend this program.

Manish Gupta, Deputy General Manager-PJ

The faculty, Ms. Ruchira Jain has shown excellent mastery of the topics as she confidently and competently delivered each and every one of 17 units. **Ms. Jain's delivery and mastery of topics is unparalleled. My hats off to her teaching**. The module on Totality of Project Management (TPM) is the ultimate in learning with the highest possible quality of contents and delivery.

Brian Ernest Regalado, Founder and Lead Educator, Build Quotient AEC Training Institute, Philippines

"**Totality of Project Management (TPM)** was superb program and Madam **Ruchira Jain's teaching skill is superb. It is memorable and life time experience**.

S M Yadav, Project Manager (Civil), DMRC,

"This module **should be taught to all government and corporate officials** who are in any way managing a project which has a tangible and measurable output. ".

Brig. Vikram Nagpal, IDS

"It has broadened my project management knowledge and skills with many new learnings **- a superb experience".**

Thinley Wangdi, CFO

"Really lucky to have enrolled in this course. **The module is absolutely a gem.** It mixes all basic and the profound and neatly connects them with simple and solid fundamentals. Top of the shelf course".

Anupam Mukherjee, AGM, NTPC

"The faculty Mrs. Ruchira Jain's way of explaining the topics is commendable. This program on Project Management is a must for not only project guys, in fact **it should be a mandatory thing for every professional in every industry**".

Shashank Tiwari, HMEL, Petrochemical Project

"I feel that in each and every corporate/ psus/ companies and engineering colleges the **course must be included for every executive".**

Ramanpratap Singh, Northern Coalfield

It was my dream to get the best contents from the best teacher in project management. Today at the completion of Level 1 on **Totality Project Management taught by Madam Ruchira Jain had awakened my dreams**.

Subas Subedi, Helvetas, Nepal

Knowledge imparted by Mrs. Ruchira Jain was great. **Her experience in the field helped a lot on self-improvement** as a person and in professional life.

Sajith V, Sr. Deputy General Manager (Signalling & Telecom)

An excellent Class with great value addition in my professional life.
Capt. Sandeep

Great module. Had all the contents I had always wanted to understand and get inputs from the authority on the subject and I got it.

Vijayakumari G, DGM (Rail Marketing), (Batch 2)

I am completely amazed by the content and presentation of the Totality of Project Management module and will make India at the top in becoming a project oriented nation. **Ms. Ruchira Jain is an awesome teacher .**

Anjali Chawla, Executive Engineer, Department of Water Supply & Sanitation, Punjab Government.

It's great to be a part of this course.

Resource Person

Adesh Jain is the Chairman, International Institute of Projects and Program Management (i2P2M), a not for profit company and Founder of World Project Management Forum (WPMF). He holds a Bachelor of Electrical Engineering from the Indian Institute of Science, Bangalore in 1965 and Master of Engineering from Canada in 1967. He worked in Canada till 1973 and decided to return to India. In 1978, he was heading one of the 7 divisions of BHEL. In 1992, he formed the Centre for Excellence in Project Management (CEPM) with an aim of creating a project oriented India.

He was invited twice to give presentations at the NASA PM Challenge Conferences in 2010 and 2012 on 'Breaking boundaries- the key to innovation' and 'Awakening of project consciousness through stakeholders buy-in' respectively. Recognizing his global contribution in project management, he was conferred the Life Time Achievement Award in 2014. his book "Assorted Thoughts on Project Management " was released by Shri Nitin Gadkari, Minister of Road Transport & Highways in 2014. He is often referred to as Bhishma Pitamah of Project Management. *In short, he is a visionary leader shaping the PM profession globally.*

Projects are taken up to build the future and have many uncertainties. Risk is, therefore, at the center stage of managing projects. Risk management is 70% of project management. Diverse interests of stakeholders contribute significantly to project risks. Along with Risk management concepts some success stories in managing risks will also be covered. As shown in Figure-1, Risk Is Everywhere (RIE). Risk is uncertainty that matters.

Project Risk Management covers :

- Enterprise Risk Management Models - COSO, ISO 31500, IRM
- Risk Identification and Categorisation - Tools and Methodologies
- Risk Evaluation and Quantification
- Possible Risk Response and Mitigation Strategies
- Risk Control Processes

Some other topics covered in this module of project risk management are : Decision making, Responsibilities, Gross and net risks, Risk identification techniques, Risk quantification processes, Types of mitigation strategies, Benchmarking and scenario analysis, Probability impact grid, Monte Carlo simulation, EVA, Life cycle costing, Transparency of risks, Respect for risks, Complete templates for risk identification, quantification, response development and control, Impact of risks on formulation of budgets and risk documentation.

As per the previous project risk management programs, on average there was an improvement in the knowledge level of a participant by a factor of 2.4 times. We conduct an initial assessment before the program begins related to risk management. The average score of this initial assessment is then compared with the average score of the participants after going through the Introductory Certificate in Project Risk Management examination. Improvement by a factor of 2.4 is a massive gain just after going through a day long risk management program which covers 7 risk management processes.

PM3: Computer Based Real Time Simulation Programs

Guy Giffin

With specialisation in simulating the challenges of leading complex projects, Prendo's simulations are used at many of the world's top business schools, including Columbia, IMD, INSEAD, MIT Sloan, Oxford/Saïd and Wharton.

Guy Giffin, Director, Prendo Simulations will be speaking to participants. Guy has delivered hundreds of simulation workshops in over 30 countries around the world, with organizations including: Bechtel, EDF Energy, Gazprom, Goldman Sachs, IBM, Morgan Stanley, Oracle, Petrobras, Shell and the United Nations. He teaches on various MBA, EMBA and executive programs at Cambridge, Columbia, MIT Sloan, etc.

Why Simulate?

Online education combined with real time computer based simulation programs is again one of the major strengths of I/EDPM program in making learning effective and meaningful to organisations.

Leaders face many challenges in the modern world, including working with increasing levels of complexity and ambiguity, accelerating levels of change and uncertainty, as well as ongoing pressure to act responsibly and ultimately, to create value. The most powerful learning method to address these many challenges is advanced simulations, because participants must take the decision and see the consequences.

Lectures & slide presentations, books, articles, & papers are effective ways of sharing information. Case study discussions go further, but still don't force participants to take decisions or see the consequences. The next generation of leaders in particular are increasingly combining learning to competency development to implementation at work place to make their organisation competitive. i2P2M provides this platform through it's I/EDPM program.

People learn by doing

Complex skills can only be developed by (a) making decisions or taking actions, (b) experiencing the consequences, and then © figuring out what happened and why, and then repeating the process, i.e. practising.

Simulations are better than real world experience

In contrast with using real projects and real organisations as their practice grounds, when mistakes can be very expensive, simulations are faster, lower risk, lower cost, and crucially, more effective because they make the link between cause and effect easier to see.

Simulations are essential in many professions

Pilots, military strategists and surgeons, for example, have long understood the importance of simulating their activities in order to improve their performance and reduce the risk of failure in the real world.

i2P2M

setting a new benchmark in executive education globally

Three to five participants form a Team. The aim at the end of each simulation program is to excel in Key Performance Indicators (KPI). i2P2M Trophy will be given to one of the expected 60 teams which scores the highest marks in the 2 Simulation programs.

PM3A: Real Time Simulation on Managing Stakeholders (virtual teams)

2026 : Batch 1 (22 Jan), **Batch 2** (19 Feb), **Batch 3** (26 Mar), **Batch 4** (23 Apr), **Batch 5** (28 May), **Batch 6** (25 Jun)

Virtual EDPM online Program

Prendo was commissioned by Shell to design and develop a simulation of how typical spectrum of stakeholders behave during a major project. The simulation brings to life the universal leadership challenge of maximizing support across a range of parties who have different interests, agendas and motives. The simulation is used across the globe in numerous industries.

It provides challenge in balancing of People (settlement, schools, jobs), Economic (project profit, taxes) and Planet (rainforest, parrots, river pollution). This online simulation is used in managing stakeholder effectively. **Participant's gaining experience of 1 year in just 1 day.**

Key topics

- general management and strategy
- global and cross-cultural leadership

- ethical leadership and CSR
- stakeholder management

- influencing skills and networks
- communication strategy

Learning outcomes

- develop effective stakeholder consultation strategies
- develop detailed stakeholder analyses
- map & use influence networks
- understanding multi-cultural dynamics

- create a communication plan that reflects cultural preferences
- analyse the full range of human interests & motives
- balance conflicting stakeholder interests
- balancing People (settlement, schools, jobs), Economic (project profit, taxes) and Planet (rainforest, parrots, river pollution)

PM3B: Real Time Simulation on Project Leadership (virtual teams)

2026 : Batch 1 (23 Jan), **Batch 2** (20 Feb), **Batch 3** (27 Mar), **Batch 4** (24 Apr), **Batch 5** (29 May), **Batch 6** (26 Jun)

Virtual EDPM online Program
(80 team, 3 to 5 persons per team expected)

Prendo's 'SPATIUM' real time simulation on Project Leadership provides an intense, risk-free experience of managing a complex project.

It is a mind boggling experience that one goes through. In 6 hours, you gain 3 years of experience .**The "3 years in 6 hours" real time simulation** will take you across all the project life cycle phases which in real live situation will take 3 years from planning to completion. Often, a team member does not get an opportunity to work from the stage of conceptualisation to project closure. Great opportunity for the participants of IEDPM program. Top business schools and world fame companies regularly use these simulation programs to build competencies in managing projects and programs.

Developed in collaboration with the Major Projects Association, Prendo's Spatium simulation presents participants, typically organised in teams, with a challenging mission. It is an intense, but risk-free experience that will help them develop skills in the topic areas below.

Key topics:

- advanced project management
- implementing strategy

- managing risk & uncertainty
- stakeholder management

- teamwork
- complexity & ambiguity

Learning outcomes:

- define project success
- manage the early stages of a project
- develop an optimal contract strategy

- analyse and manage risks
- judge stakeholder-driven trade-offs
- juggle & integrate multiple disciplines

- plan & control a project
- take decisions in a complex scenario

Intense, but risk-free experience from start to end of a project

Three compelling reasons to use Simulation programs in I/EDPM
INSIGHT - the simulations ensure profound understanding by giving users chance to see 'both cause and effect'.

FORESIGHT - the simulations provide hands on experience to reduce the risk of making mistakes in the real world.

EFFICIENCY - the simulations provide accelerated experiences ensuring fast, effective and accessible learning.

Prendo's simulations are used by many global organizations and leading business schools, including:

Some comments the from the participants

"The simulation exercise is a class of its kind never experienced before. I would like to thank i2P2M for including simulation exercies. It is a great experience. I2P2M is the only company in the world which includes real time simulation programs. Hats off to them."

Peter R. Easley Esq (USA) - The World Bank, Washington DC. Former Deputy Chief Corporate Procurement & Head of Sourcing and Category Management. The World Bank, Washington DC and a well known authority on Procurement and Contracting management. He is widely traveled with rich international experience.

Topic: Procurement and Contracting

At the end of this module participants will have a good understanding of procurement and contracting and its impact on sucess of the project. The Candidates should be able to: (1) Discuss procurement and contracting processes and principle. (2) Explain and critically evaluate the contract administration issues including contract terms & change order management.

Dr. Hans Stromeyer (Germany) is co-founder & president of the International Association of Project Managers (IAPM). Before that, he was Director of Science Services and International Programs at Spacehab, Inc. in Houston. The company developed and operated manned modules in the payload bay of the American Space Shuttle. He was recipient of the price of the German Project Management Award as well as the Award of Space Missions D1 & D2.

Topic: Hybrid Project Management

Project Management is in a period of adaptation to our VUCA world. Today, projects aim to be more responsive to unclear customer demands. This development was spearheaded by the Agile Manifesto proclaimed by leading software developers in the USA. Scrum and other frameworks have rapidly gained attraction worldwide, prompting traditional projects to include agile mindset and methods. Hybrid project modeling allows combining classic and agile elements intuitively.

Prof. Dr. Ralf Müller (Norway) is Professor of Project Management at BI Norwegian Business School and Editor-in-Chief of the *Project Management Journal®.* He lectures and researches in leadership, governance, and organizational project management. His research appeared in more than 250 academic publications. Prior to his academic career, he spent 30 years in the industry.

Topic: Governance through Organizational Project Management (OPM)

Organizational Project Management (OPM) extends and integrates the distinct views of projects, programs, and portfolios and describes a governance approach to all project-related work in an organization. That includes the organizational and business-related integration of projects, programs, and portfolios. Project-oriented organization structures. OPM model integrates 22 of these themes for effective governance of organization-wide project work.

Oliver Maeckel (Germany) is Vice President and Partner at Siemens Advanta Consulting, Germany. He has been with Siemens AG since 1997. The focus of his current work is, in particular, the development and delivery of "first-of-its-kind" large-scale projects and especially the digitization of project business processes. He and his team have supported more than 200 major and mega projects.

Topic: Mega projects – raw diamonds or raw eggs?

Mega projects are raw eggs, developed well they will change to be raw diamonds instead. The number of large projects continues to grow over the last decades. Nonetheless, these projects are more than often the first of their kind and therefore moving the final frontier. Scaling up things and working in this area is often risky due to many new situations and uncertainties. Planned creation and excellent execution, the eggs will become diamonds.

Topic: Project Mindset

The word 'Project Mindset' was coined and introduced by Adesh Jain in August 1999 in Stockholm, Sweden while giving a one day seminar on "Project Mindset – the Key to Competitiveness". In last 20 years, lot of development has taken place in refining the conceptual framework of 'Project Mindset'. A thought provoking presentation will be given to the participants with the latest conceptual framework of role of Project Mindset in managing projects.

Veikko Välilä (Finland) has provided management consulting services for thermal & nuclear power projects, pulp & paper plant projects and mega-size infra projects including harbor, metro, airport, rail- and motorway projects. Veikko is a member of the Advisory Board of the Climate Leadership Coalition, the largest non-profit climate business network in Europe. He has lived in 5 countries and worked in more than 50 countries.

Topic: Climate Change and Sustainability

A large number of the world's leading companies and financial markets have made up their minds: their money is on its way to a low-emission economy. This means that the market for low-emission products and solutions is growing, while the market for high-carbon products is stagnating and will soon shrink. Countries, companies and investors now have a once-in-a-generation opportunity to scale zero-carbon industries in the 2020s, to create prosperous growth and more resilient economies. The countries that create lucrative conditions and incentives for the new solutions will win big time.

Topic: The BANI scenario and the New Generations in PM

How to deliver a project in a Brittle, Anxious, Nonlinear, Incomprehensible scenario? BANI is a logic that determines how your personal posture should be from now on. In addition, there is a great sense for companies to incorporate this philosophy and internalize it from strategic planning to their Leadership style. Welcome to the chaotic world, where conditions are not simply unstable, they are chaotic. Trying to control them, interpret them or even avoid them is no longer possible. The great competitive advantage of a professional or company, now, is knowing how to react to everything that happens. Some will be frozen waiting for a benchmarking to emerge.

Topic: AI AND ML: How to future-proof your PM career

Artificial Intelligence (AI) and Machine Learning (ML) are two huge factors that is changing technology and business. But what is their impact on you? What will your job look like five years from now? Will it even exist in five, 10 or 20 years? And what will happen to the organization and industry you work for? We will discuss the definitions of these two terms, how they impact business and workers, and what things project managers can do today to prepare for the future.

Antonio Nieto-Rodriguez (Belgium) is an Author of the Harvard Business Review Project Management Handbook, the featured HBR article The Project Economy Has Arrived, and four other books, Antonio is the creator of concepts such as the Project Economy and the Project Manifesto. His research and global impact in modern management have been recognized by Thinkers50. Fellow and Former Chairman of the Project Management Institute, he is the founder of Projects&Co and co-founder of the Strategy Implementation Institute. He is a member of Marshall Goldsmith 100 coaches.

Topic: The Project Economy Has Arrived, and Why Project Management Had to Be Reinvented

Today, about 70% of projects fail to deliver their objectives. Considering that every year approximately 48 trillion US dollars are invested in projects, we fail to deliver trillions of benefits, value, and impact in organizations and society at large. If we increase our success ratio from 30% to 60%? Just imaging the amount of value that we would be adding to the world, approximately the GDP of China in extra benefit. To achieve this incredible goal, project management and projects managers will need to reinvent themselves.

Randall L Englund (USA) as an author, speaker, educator, trainer, professional facilitator, and consultant for the Englund Project Management Consultancy delights in sharing his passion for project, program, and portfolio management. He is co-author of seven books in the business and management field. He received the Distinguished Contributions Award from PMI.

Topic: Environments and People Skills that Improve Organizational Performance

Creating excellence in project management occurs when sponsors appoint appropriate project leaders, and they apply methodologies, viewpoints, insights, and leading practices to optimize project-based work. Organizational maturity requires that leaders reduce organizational "toxins".

Professor Dr. Hiroshi Tanaka (Japan) is in the forefront of global PM community over the past half century. He is professor of strategy and project management. Is a well-known PPM trainer covering Asia, Africa, Europe and Latin America. Is the founder and past president of Project Management Association of Japan (PMAJ).

Topic: Agility in Corporate Enterprises Realized by Applied Project Management

COVID-19 pandemic, VUCA/ BANI environment, global sustainability commandment, and disruptive technology have changed the landscape of industry and society. Project management needs to respond to this global transition.
