#### Some Feedback

**Superb faculty and excellent exposure, best learning experience and massive gain in knowledge of project management.**

- Dr. Deepak Mishra, SAC, ISRO

Level 1 TPM **course is awesome**

- Pooja Yadav, SAG, DRDO

8 Project Life Cycle Phases of TPM is in line with NITI Aayog's recommendations for project management curriculum

TPM covers eight Project Life Cycle (PLC) phases – Conceptualize, Plan, Organize, Implement, Control, Integrate, Deliver & Closeout and Knowledge Leverage. Each phase has been depicted using different colors of varying intensity showing the intensity of the work during that phase. Three additional Project Life Cycle phases **Organize**, **Integrate**, **Knowledge Leverage** were introduced first time globally. The additional 3 project life cycle phases is added to conventional 5 project life cycle phases used by other global PM associations. Totality of Project Management is most unique globally. CEPM provides project management training based on the syllabus provided by i2P2M which administers the Certificate In Project Management (CIPM) Exam

Some of the 37 Knowledge Areas covered in Totality of Project Management (TPM) are: Stakeholder Management, Need Analysis, Business Case, Success Criteria, Scope Definition, Time Management, Cost & Finance, Project Management Plan, Roles & Responsibilities, Risk & Opportunity, Procurement, Quality, Information Management & Reporting, Contract Administration, Communication, Organization Structures, Leadership, Motivation, Conflict Resolution, Team Performance, Negotiation, Change Management, Issue Management, Problem Solving, Internal & External Interfaces, Closeout, Post Project Evaluation, Agile methodology, Health, Safety, Environment, CSR etc.

#### Excerpts from NITI Aayog Task Force Report on Project & Program Management :

**25,000+ professionals across 650+ companies from 25+ countries have done Totality of Project Management. Some leading companies are :**

The Totality of Project Management (TPM) training is started with an initial knowledge assessment PreTest through CEPM's Project Management Knowledge Quotient (PMKQ) tool. After the TPM training we find an astounding improvement. For example, there was a 2.8 times improvement of the participants who have gone through Totality of Project Management.

A Project Management Knowledge Quotient (PMKQ) test was held at the beginning of the 3 day Level 1 Totality of Project Management program to assess the knowledge gaps of the participants. Faculty paid special attention to the weak areas of the participants of the class as per the initial test.

The Certificate In Project Management (CIPM) Exam was conducted at the end of the training program on 3rd day. As can be seen from the graph, there has been on average an increase by a factor of 2.8. It is remarkable improvement.

## Certificate In Project Management (CIPM)

Certification is aligned to the TPM Syllabus

i2P2M will hold the 2.5 hour Certificate In Project Management (CIPM) exam

Certificate In Project Management (CIPM) is ISO/IEC 17024:2012 accredited. It is administered by International Institute of Projects & Program Management (i2P2M).

i2P2M is only certification body in India to have ISO/IEC17024:2012 accreditation for CIPM.

Certificate In Project Management (CIPM) is administered by International Institute of Projects & Program Management (i2P2M), **which is the only Indian Company with ISO/IEC 17024:2012 accreditation in Project Management for its Certificate In Project Management from NABCB under QCI.**

(International Accreditation  
as per ISO/IEC 17024:2012)

**NABCB** - National Accreditation Board for Certification Bodies under Quality Council of India (QCI). The nodal ministry of QCI is Ministry of Commerce and Industry, Government of India.

ISO/IEC 17024:2012 is an international standard developed by the International Organization for Standardization (ISO) that sets criteria for the certification of personnel. ISO/IEC 17024:2012 is a globally recognized framework for the certification of individuals to ensure their knowledge, skills, and competencies meet the required standards.

ISO/IEC 17024:2012 provides a framework for ensuring consistency, credibility, and quality in certification programs. By complying with this standard, **certification bodies** can demonstrate their adherence to internationally recognized practices and build trust among all stakeholders.

Some of the participants going through Certificate In Project Management(CIPM) Exam which is ISO/IEC 17024:2012 accredited

## Great global recognition for the CIPM certificate offered by i2P2M

**The International Association of Project Managers (IAPM)** started in 1997 is a leading non-profit, globe-spanning association and certification body for project managers **headquartered in Liechtenstein, Europe**. IAPM's purpose is to promote project management competence globally.

IAPM has 3 certifications in traditional project management the highest of which is their Certified Senior Project Manager (IAPM) which proves knowledge and comprehensive practical experience in the subject area of project management. Examination contents cover hard and soft factors in project management.

**i2P2Ms' Certificate In Project Management (CIPM) is recognised by IAPM. It is a great global recognition for the ISO/IEC 17024:2012 accredited CIPM credential that is administered by i2P2M.**

IAPM certifications are valid and recognized worldwide. As an individual, a certification brings you objective confirmation of your knowledge as well as your experience. Thus person's credibility value increases in their organisation as they are expected to perform better in managing projects.

**A great recognition  
for CIPM**

**iapm**  
INTERNATIONAL ASSOCIATION OF  
PROJECT MANAGERS  
**Liechtenstein, Europe**

CIPM holders will also be eligible to get certification from International Association of Project Managers (IAPM), Liechtenstein, Europe

**CIPM certification is recognised by International Association of Project Managers (IAPM).** After acquiring CIPM credential, one is eligible to get Certified Senior Project Manager (CSPM) from IAPM, a reputed global organisation. CIPM is a great global recognition. CIPM holders can acquire CSPM credential from IAPM, Europe thereafter by paying a small fee.

"Live Online program on Totality of Project Management (TPM) that Ruchira Jain taught was very rich in contents. She is an excellent teacher and having rich experience. The training program was strengthened through numerous examples & exercises. **TPM program gets 10 by 10**".

of Project Managers (IAPM), Europe

## i2P2M MOU with CMDF, Philippines Government

On July 7, 2023, A historic MOU was signed between Construction Manpower Development Foundation (CMDF), a national government agency created pursuant to Presidential Decree No. 1748, Philippines and International Institute of Projects and Program Management (i2P2M), a not-for-profit company under section 8, India in Makati, Philippines. Some items covered in MOU are:

- Adopt the certification scheme of i2P2M.
- Revise CMDF project management syllabus covering the transition from PMI based to i2P2M based standards of Totality of Project Management leading to ISO/IEC 17024:2012 accredited CIPM Certification.
- Recognise EDPM program and CIPM.
- Conduct EDPM Fast Track, 6 day program for CEOs and senior managers.

### *CIPM - Make In India initiative with Global Reach*

## About the CIPM Examination offered by i2P2M

The ISO/IEC 17024:2012 accredited Certificate In Project Management (CIPM) examination is offered and administered by the not-for-profit, International Institute Projects and Program Management (i2P2M). Candidates must be minimum graduates in any field.

The CIPM exam is a robust 2.5 hour, objective, multiple choice exam. The exam paper has 150 questions with maximum 200 marks based on application of knowledge, scenarios and computations. The paper is subdivided into 4 sections covering the 8 project life cycle phases.

Candidates need to independently pass each section by scoring at least 50% marks in each section and 60% marks across the entire paper. Exam paper has different types of questions – 1 mark question with 4 options, 2 mark question with 5 options, scenario questions for 3 or 4 marks and 5 mark questions involving computations.

CIPM exam has negative marking providing robustness to the exam process. It is the only PM certification exam globally that has negative marking.

Candidates need to follow i2P2M's instructions for the CIPM exam. CIPM certificate is given to those candidates that qualify in the exam which carries the logo of NABCB, Quality Council of India. The certificate is valid for 5 years. i2P2M is the company in India with ISO/IEC 17024:2012 accreditation for its Certificate In project Management credential.

CIPM is recognised by IAPM, Europe. CIPM holders can acquire IAPM, Europe's Certified Senior Project Manager (IAPM) credential by paying a small processing fee.

**Three compelling advantages in using simulation program from Prendo, UK**

- INSIGHT-** the simulations ensure profound understanding by giving users chance to see 'both cause and effect'.
- FORESIGHT** - the simulations provide hands on experience to reduce the risk of making mistakes in the real world.
- EFFICIENCY** - the simulations provide accelerated experiences ensuring fast, effective and accessible learning.

**Simulation provides an excellent experiential learning**

**People learn by doing**

Complex skills can only be developed by (a) making decisions or taking actions, (b) experiencing the consequences, and then (c) figuring out what happened and why, and then repeating the process, i.e. practising.

**Simulations are better than real world experience**

In contrast with using real projects and real organisations as their practice grounds, when mistakes can be very expensive, simulations are faster, lower risk, lower cost, and crucially, more effective because they make the link between cause and effect easier to see.

**Simulations are essential in many professions**

Pilots, military strategists and surgeons, for example, have long understood the importance of simulating their activities in order to improve their performance and reduce the risk of failure in the real world.

Leaders face many challenges in the modern world, including working with increasing levels of complexity and ambiguity, accelerating levels of change and uncertainty, as well as ongoing pressure to act responsibly and ultimately, to create value. The most powerful learning method to address these many challenges is advanced simulation, because **participants must take decisions and can see the consequences.**

Lectures are effective ways of sharing information. Case study discussions go further, but still don't force participants to take decisions or see the consequences. None of these methods provoke any memorable emotional reaction. The next generation of leaders in particular are looking for live experience through project management simulations like pilots do through flight simulators.

**Prendo's simulations are used by many global organizations and leading business schools, including:**

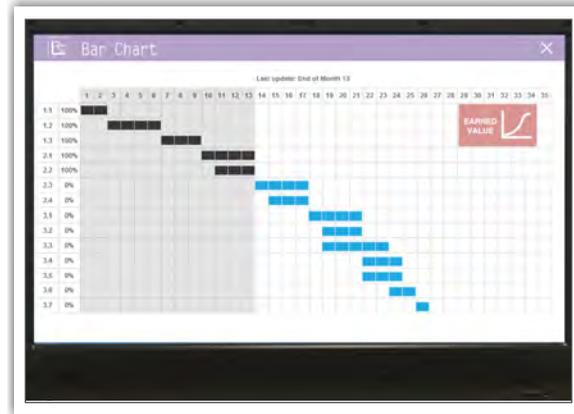

**Some comments from participants**

- The simulation exercise is a class of its kind never experienced before. I would like to thank i2P2M for including simulation exercises. It is a great experience. I2P2M is the only company in the world which includes real time simulation programs. Hats off to them.
- It was a life time experience, having fun as well as learning. It gave many insights and sharpened my opinions. It also opened many a closed windows.
- Awesome and creative way of learning and understanding from the stage of formulation to completion.

Real Time Simulation on Project Leadership from UK

Out of 12 stakeholders, Banker, Head of Design Team and CEO giving their opinion on the business case as proposed by the team

Project monitoring through Bar chart to control Time, Scope, Risk, Cost, Quality and maximising stakeholder's satisfaction

The real time simulation on Project Leadership construction project to be completed in 23/24 months within 50 million pounds and satisfying 12 different stakeholders.

The "3 years in 1 day" real time simulation will take you across all the project life cycle phases which in real live situation will take 3 years from planning to completion. Often, a team member does not get an opportunity to work from the stage of conceptualisation to project closure. It is an intense, but risk-free experience that will help them develop skills in the key topics as given below.

Developed with inputs from the Major Projects Association, UK the simulation brings to life many key themes of advanced project management, including:

- project success: what is it, and what causes it
- project complexity and uncertainty
- the "art" of project management

KEY TOPICS

- Advanced project management
- Managing risk & uncertainty
- Teamwork
- Implementing strategy
- Stakeholder management
- Complexity & ambiguity

LEARNING OUTCOMES

- define project success
- analyse and manage risks
- manage the early stages of a project
- judge stakeholder-driven trade-offs
- develop an optimal contract strategy
- juggle & integrate multiple disciplines
- plan & control a project
- take decisions in a complex scenario

Team Score Range -100 to +100 Marks  
(Team score will be normalised to 200 Marks)

Project Leadership

There are twelve key persons who are associated with this project. The team challenge is to demonstrate project leadership to maximise the overall satisfaction of these 12 key stakeholders, timely completion of the project within cost and with good profitability.

He was invited twice to give presentations at the NASA PM Challenge Conferences in 2010 and 2012 on 'Breaking boundaries- the key to innovation' and 'Awakening of project consciousness through stakeholders buy-in' respectively. Recognizing his global contribution in project management, he was conferred the Life Time Achievement Award in 2014. his book "Assorted Thoughts on Project Management " was released by Shri Nitin Gadkari, Minister of Road Transport & Highways in 2014. He is often referred to as Bhisma Pitamah of Project Management. **In short, he is a visionary leader shaping the PM profession globally.**

Projects are taken up to build the future and have many uncertainties. Risk is, therefore, at the center stage of managing projects. Risk management is 70% of project management. Diverse interests of stakeholders contribute significantly to project risks. Along with Risk management concepts some success stories in managing risks will also be covered. As shown in Figure-1, Risk Is Everywhere (RIE). Risk is uncertainty that matters.

Risks we take and Risks we face

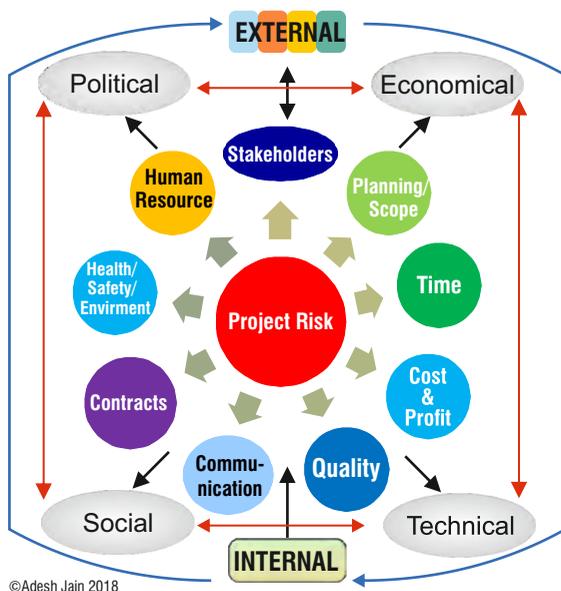

Figure-1

7 Risks Management Processes

The one day workshop will cover all the Seven Risk Management Processes in a structured way. Risk Management is an ongoing process from concept to commissioning.

Risks are those uncertainties that matter

risks we take and risks we face  
Being proactive in risk is least risky

Create new possible futures by viewing risks - both threats and opportunities

Managing uncertainties requires Risk Mindset

Average Score of 2500+ Professionals  
in Pre Test at the start of Project Risk  
Management 1 day program.

As per the previous project risk management programs, on average there was an improvement in the knowledge level of a participant by a factor of 2.4 times. We conduct an initial assessment before the program begins related to risk management. The average score of this initial assessment is then compared with the average score of the participants after going through the Introductory Certificate in Project Risk Management examination. Improvement by a factor of 2.4 is a massive gain just after going through a day long risk management program which covers 7 risk management processes.

from 2.30 to 3.30 pm

Since the launch of Certificate in Risk Management credential in 2011, as on date there are over 2500+ professionals across 11 countries from 185+ companies across all sectors with CrtPRM certification. India is one of the few countries where we have a specialised certificate in project risk management. EDPM i2P2M has introduced a project risk management credential Introductory Certificate in Project Risk Management (Intro CrtPRM). The exam will cover all the seven risk management processes given on previous page.

#### Wisdom Sharing (3.30 am to 4.30 pm)

Belgium  India 

**Antonio Nieto-Rodriguez (Belgium)** is the Author of the Harvard Business Review Project Management Handbook, the HBR article The Project Economy Has Arrived, and four other books, Antonio is the creator of concepts such as the Project Economy and the Project Manifesto. His research and global impact in modern management have been recognized by Thinkers50. Fellow and Former Chairman of the Project Management Institute, and is the co-founder of the Strategy Implementation Institute.

**Topic: The Project Economy Has Arrived, and Why Project Management Had to Be Reinvented (Video based)**

Today, about 70% of projects fail to deliver their objectives. Considering that every year approximately 48 trillion US dollars are invested in projects, we fail to deliver trillions of benefits, value, and impact in organizations and society at large. If we increase our success ratio from 30% to 60%? Just imaging the amount of value that we would be adding to the world, approximately the GDP of China in extra benefit. To achieve this incredible goal, project management and projects managers will need to reinvent themselves.

**Adesh Jain (India)**  
Chairman i2P2M & Founder of WPMF

The word 'Project Mindset' was coined and introduced by Adesh Jain in August 1999 in Stockholm, Sweden while giving a one day seminar on "Project Mindset – the Key to Competitiveness". In last 20 years, lot of development has taken place in refining the conceptual framework of 'Project Mindset'. A thought provoking presentation will be given to the participants with the latest conceptual framework of the role played by a Project Mindset in managing projects. The first 3 Wisdom Sharing sessions from outside India shall be through video recording moderated by Adesh Jain.

**Topic : Project Mindset - The DNA of the World of Change**

#### Collective Action Plan (4.30 to 5.30 pm)

Learnings gained through EDPMs 4 levels prepares participants to apply the knowledge/experience gained at their workplace. In the Collective Action Plan, based on participant's participation, the facilitator will create a set of 4 to 5 recommendations to be implemented in their company. The most unique USP of EDPM program 's 4 levels are to transform competency development to measurable outcome.
