Building PM Competencies in a World of Change & Pioneering Project Management Certification Worldwide

SRW

2 days Workshop on

Computer Based Real Time Simulation, Project Risk Management & Wisdom Sharing & Collective Action Plan

Delhi : **9 - 10 October 2025**, Hotel Le Meridien, New Delhi

Some Feedback from Participants

It was **indeed an eye opener** for me to **learn different aspect of risk management** well structured & delivered.

- Chandrakanta Kumar, URSC, ISRO

Real time computer-based simulation is an excellent experience to get a feel of the PM methodologies.

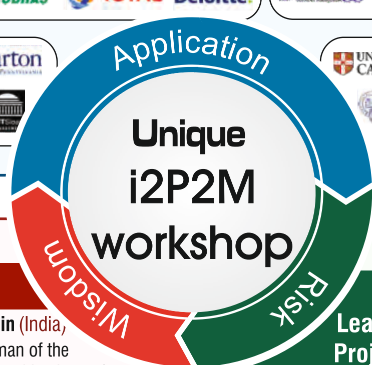
- Dr. S Suresh Babu, VSSC, ISRO

The Importance of **Risk-based thinking** was taught very clearly through examples and the **coverage of topics under Risk Management was exhaustive**

- K.P. Jayaprakash, CABS, DRDO

Wisdom Sharing Great program for emerging leaders. Gives a good perspective on all important aspects

- Dr Amitabh Saraf, ADA, DRDO



Level 2 — 1 Day

Computer based Real Time Simulation on Project Leadership from UK

Gain 3 years of experience in 1 day

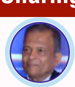
Prendo simulations are also used by many global organizations and leading business schools, including:

Unilever, Google, Shell, BT, Petrobras, Total, Deloitte, INSEAD, Columbia Business School, Kellogg, IMD, Wharton, London Business School, MIT Sloan, University of Cambridge, Oxford Saïd Business School

Level 4 — 1/4 Day

Wisdom Sharing

Antonio Nieto-Rodriguez (Belgium) is the Author of the Harvard Business Review Project Management Handbook and a leading consultant.



Adesh Jain (India) is Chairman of the International Institute of Projects & Program Management (i2P2M) & Founder of the World Project Management Forum (WPMF).

Collective Action Plan

Learnings gained through EDPMs 4 levels prepares participants to apply the knowledge/experience gained at their workplace. In the Collective Action Plan, based on participant's participation, the facilitator will create a set of 4 to 5 recommendations to be implemented in their company. The most unique USP of EDPM program 's 4 levels are to transform competency development to measurable outcome.

Level 3 — 3/4 Day

Project Risk Management Leading to the Introductory Certificate in Project Risk Management (Intro CrtPRM)

Risks are those uncertainties that matter

Project management knowledge must get translated to its application through a systematic approach of full risk management from start to closeout.

A great opportunity not to be missed !

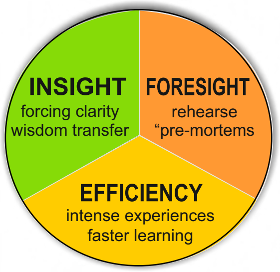
Level 2 (1 day)

Computer Based Real Time Simulation Program from UK on Project Leadership

Timings : 9.00 am to 5.30 pm

***Delhi :* 9 October 2025**



Three compelling advantages in using simulation program from Prendo, UK

INSIGHT- the simulations ensure profound understanding by giving users chance to see 'both cause and effect'.

FORESIGHT - the simulations provide hands on experience to reduce the risk of making mistakes in the real world.

EFFICIENCY - the simulations provide accelerated experiences ensuring fast, effective and accessible learning.

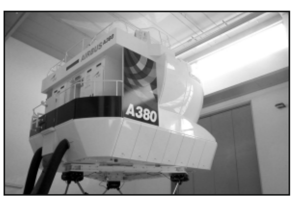
Simulation provides an excellent experiential learning

People learn by doing

Complex skills can only be developed by (a) making decisions or taking actions, (b) experiencing the consequences, and then (c) figuring out what happened and why, and then repeating the process, i.e. practising.

Simulations are better than real world experience

In contrast with using real projects and real organisations as their practice grounds, when mistakes can be very expensive, simulations are faster, lower risk, lower cost, and crucially, more effective because they make the link between cause and effect easier to see.



Simulations are essential in many professions

Pilots, military strategists and surgeons, for example, have long understood the importance of simulating their activities in order to improve their performance and reduce the risk of failure in the real world.

Leaders face many challenges in the modern world, including working with increasing levels of complexity and ambiguity, accelerating levels of change and uncertainty, as well as ongoing pressure to act responsibly and ultimately, to create value. The most powerful learning method to address these many challenges is advanced simulation, because **participants must take decisions and can see the consequences.**

Lectures are effective ways of sharing information. Case study discussions go further, but still don't force participants to take decisions or see the consequences. None of these methods provoke any memorable emotional reaction. The next generation of leaders in particular are looking for live experience through project management simulations like pilots do through flight simulators.

Prendo's simulations are used by many global organizations and leading business schools, including:

Wharton University of Pennsylvania; MIT Sloan Management; INSEAD The Business School for the World®; IMD; oxford Said Business School; UNOPS; University of Cambridge; Kellogg School of Management; BT; Total; Deloitte.; Unilever; Cranfield University; Columbia Business School; Google

Some comments from participants

"The simulation exercise is a class of its kind never experienced before. I would like to thank i2P2M for including simulation exercies. It is a great experience. I2P2M is the only company in the world which includes real time simulation programs. Hats off to them."

"It was a life time experience, having fun as well as learning. It gave many insights and sharpened my opinions. It also opened many a closed windows."

"Awesome and creative way of learning and understanding from the stage of formulation to completion."

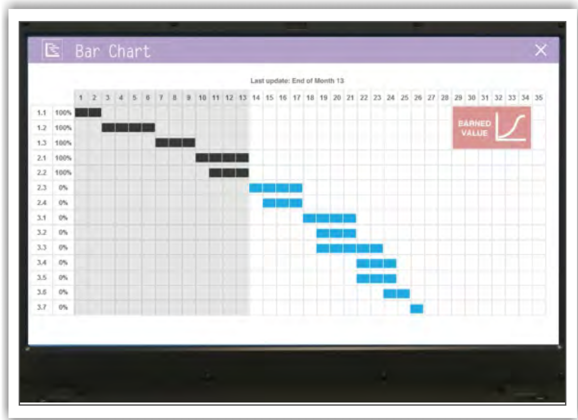
Building PM Competencies

Real Time Simulation on Project Leadership from UK

Out of 12 stakeholders, Banker, Head of Design Team and CEO giving their opinion on the business case as proposed by the team



Project monitoring through Bar chart to control Time, Scope, Risk, Cost, Quality and maximising stakeholder's satisfaction

The real time simulation on Project Leadership construction project to be completed in 23/24 months within 50 million pounds and satisfying 12 different stakeholders.

The "3 years in 1 day" real time simulation will take you across all the project life cycle phases which in real live situation will take 3 years from planning to completion. Often, a team member does not get an opportunity to work from the stage of conceptualisation to project closure. It is an intense, but risk-free experience that will help them develop skills in the key topics as given below.

Developed with inputs from the Major Projects Association, UK the simulation brings to life many key themes of advanced project management, including:

- project success: what is it, and what causes it
- project complexity and uncertainty
- the "art" of project management

KEY TOPICS

- Advanced project management
- Teamwork
- Stakeholder management
- Managing risk & uncertainty
- Implementing strategy
- Complexity & ambiguity

LEARNING OUTCOMES

- define project success
- analyse and manage risks
- manage the early stages of a project
- judge stakeholder-driven trade-offs
- develop an optimal contract strategy
- juggle & integrate multiple disciplines
- plan & control a project
- take decisions in a complex scenario

Team Score Range -100 to +100 Marks
(Team score will be normalised to 200 Marks)

Project Leadership

There are twelve key persons who are associated with this project. The team challenge is to demonstrate project leadership to maximise the overall satisfaction of these 12 key stakeholders, timely completion of the project within cost and with good profitability.

Adesh Jain

Adesh Jain is the Chairman, International Institute of Projects and Program Management (i2P2M), a not for profit company and Founder of World Project Management Forum (WPMF). He holds a Bachelor of Electrical Engineering from the Indian Institute of Science, Bangalore in 1965 and Master of Engineering from Canada in 1967. He worked in Canada till 1973 and decided to return to India. In 1978, he was heading one of the 7 divisions of BHEL. In 1992, he formed the Centre for Excellence in Project Management (CEPM) with an aim of creating a project oriented India.

He was invited twice to give presentations at the NASA PM Challenge Conferences in 2010 and 2012 on 'Breaking boundaries- the key to innovation' and 'Awakening of project consciousness through stakeholders buy-in' respectively. Recognizing his global contribution in project management, he was conferred the Life Time Achievement Award in 2014. his book "Assorted Thoughts on Project Management " was released by Shri Nitin Gadkari, Minister of Road Transport & Highways in 2014. He is often referred to as Bhishma Pitamah of Project Management. ***In short, he is a visionary leader shaping the PM profession globally.***

Projects are taken up to build the future and have many uncertainties. Risk is, therefore, at the center stage of managing projects. Risk management is 70% of project management. Diverse interests of stakeholders contribute significantly to project risks. Along with Risk management concepts some success stories in managing risks will also be covered. As shown in Figure-1, Risk Is Everywhere (RIE). Risk is uncertainty that matters.

Risks we take and Risks we face

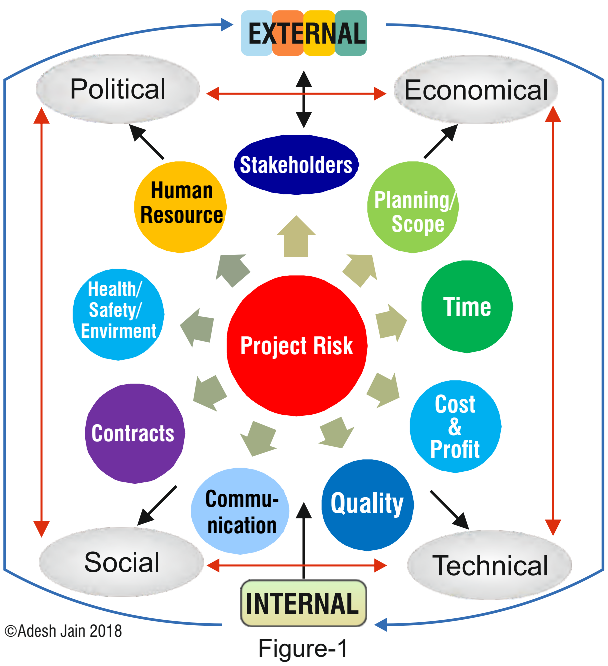

Figure-1

7 Risks Management Processes

The one day workshop will cover all the Seven Risk Management Processes in a structured way. Risk Management is an ongoing process from concept to commissioning.

Risks are those uncertainties that matter

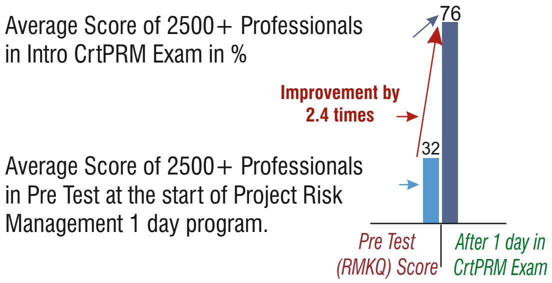
risks we take and risks we face

Being proactive in risk is least risky

Create new possible futures by viewing risks - both threats and opportunities

Managing uncertainties requires Risk Mindset

Project Risk Management (Managing Uncertainties)



As per the previous project risk management programs, on average there was an improvement in the knowledge level of a participant by a factor of 2.4 times. We conduct an initial assessment before the program begins related to risk management. The average score of this initial assessment is then compared with the average score of the participants after going through the Introductory Certificate in Project Risk Management examination. Improvement by a factor of 2.4 is a massive gain just after going through a day long risk management program which covers 7 risk management processes.

Introductory Certificate in Project Risk Management (Intro CrtPRM) Examination
Delhi - 10 October **from 2.30 to 3.30 pm**

Since the launch of Certificate in Risk Management credential in 2011, as on date there are over 2500+ professionals across 11 countries from 185+ companies across all sectors with CrtPRM certification. India is one of the few countries where we have a specialised certificate in project risk management. **EDPM** i2P2M has introduced a project risk management credential Introductory Certificate in Project Risk Management (Intro CrtPRM). The exam will cover all the seven risk management processes given on previous page.

Wisdom Sharing (3.30 am to 4.30 pm)

Belgium India

Antonio Nieto-Rodriguez (Belgium) is the Author of the Harvard Business Review Project Management Handbook, the HBR article The Project Economy Has Arrived, and four other books, Antonio is the creator of concepts such as the Project Economy and the Project Manifesto. His research and global impact in modern management have been recognized by Thinkers50. Fellow and Former Chairman of the Project Management Institute, and is the co-founder of the Strategy Implementation Institute.

Topic: The Project Economy Has Arrived, and Why Project Management Had to Be Reinvented (Video based)

Today, about 70% of projects fail to deliver their objectives. Considering that every year approximately 48 trillion US dollars are invested in projects, we fail to deliver trillions of benefits, value, and impact in organizations and society at large. If we increase our success ratio from 30% to 60%? Just imaging the amount of value that we would be adding to the world, approximately the GDP of China in extra benefit. To achieve this incredible goal, project management and projects managers will need to reinvent themselves.

Adesh Jain (India)
Chairman i2P2M & Founder of WPMF

Topic : Project Mindset - The DNA of the World of Change

The word 'Project Mindset' was coined and introduced by Adesh Jain in August 1999 in Stockholm, Sweden while giving a one day seminar on "Project Mindset – the Key to Competitiveness". In last 20 years, lot of development has taken place in refining the conceptual framework of 'Project Mindset'. A thought provoking presentation will be given to the participants with the latest conceptual framework of the role played by a Project Mindset in managing projects. The first 3 Wisdom Sharing sessions from outside India shall be through video recording moderated by Adesh Jain.

Collective Action Plan (4.30 to 5.30 pm)

Learnings gained through EDPMs 4 levels prepares participants to apply the knowledge/experience gained at their workplace. In the Collective Action Plan, based on participant's participation, the facilitator will create a set of 4 to 5 recommendations to be implemented in their company. The most unique USP of EDPM program 's 4 levels are to transform competency development to measurable outcome.
