WPMF**World Project Management Forum****Excerpts from WPMF Charter**

The Charter of the World Project Management Forum (WPMF) is for a continual exchange of ideas to address major concerns and solutions through best and next practices deployed in the front end of vision realisation i.e. project creation.

Vision realisation should balance economic, social and ecological considerations. The finer aspects of the vision realisation must be integrative in meeting demands of the present without compromising the ability of future generations to meet their own needs.

Project management is the art and science of converting vision into reality. We need more advocacy to establish projects as a medium to transform vision to reality

This front end or macro aspects of project management i.e. project creation is the master key for success of vision realisation. Obviously, this phase of project creation has a major impact on achieving both tangible and intangible benefits as initially visualised.

The project creation phase is followed by that of project delivery and benefits achieved (outcome) which needs to be compared with the visualised benefits at the time of project creation.

Society is facing many challenges in today's dynamic, unpredictable and disruptive Volatile-Uncertain-Complex Ambiguous (VUCA) world that requires a global understanding and convergence of the cyberspace, the physical space and bio space given the context of fourth industrial revolution in thinking amongst stakeholders.

We need to be agile in understanding unpredictable factors and in dynamically recalibrating the benefits visualised at the time of project creation.

The World Project Management Forum (WPMF) will also catalyse the development of a 'Project Mindset' to deal with uncertainties by taking a 'holistic' global view keeping in view Vasudeva Kutumbakam – the 'whole world is a family' which is a reality today in an increasingly global inter-connected world with multi-cultural complexities which can be leveraged.

Since we floated the idea of WPMF in March 2019, we have received very enthusiastic response in initiating the WPMF Meet from over 150 professionals across the world. Some early responses are :

I am very excited about your vision, Adesh! (Andy Kaufman, USA)

"Congratulations! This is a great and important initiative that the world needs. The project management profession needs a higher purpose. (David L Pells, USA)

It is amazing how one simple page can offer such breadth and depth and have the potential for significant world-wide impact. Good for you! I wholeheartedly agree with your emphasis on the front end visualization as one of the key project success factors. (Drew Davison, Canada)

I think this initiative is timely, for at least three reasons.
One: It is clear and becoming even clearer that society is facing many challenges that require a global response. Over 25% of GDP is delivered via projects. (Peter Morris, UK)

I consider your idea exceptional and intriguing, Adesh (Tomasz Wrzesiewski, Poland)

This appears to me as a timely initiative. I fully support your initiative. (Gilles Caupin, France)

I personally believe is an excellent endeavour - a global platform for all project professionals across the world. (Md. Abdullah Al Mamoon, Bangladesh)

This is an excellent initiative to improve the macro level of project visualisation. (Pevvila, Villar Diaz, Victor, Peru)

- 4 Coo, PMO, Resource Planning -> RIP
- 5 From PM to Implementation Specialists

Project Economy transforming Operations to Projects causing major disruptions

DEMONSTRATE AUTHENTICITY AND INTEGRITY

- Say what you believe - *authenticity*
- Act on what you say - *integrity*
- Avoid "integrity crimes"
- Involve team members in designing implementation plans
- Foster an environment where project teams succeed by learning and operating in a **trusting, open** organization.

Randall L Englund (USA) spoke on 'Demonstrate Authenticity and Integrity'

Context for interface organizations (12)

Characteristic	Agency theory	Stewardship theory
Governance mechanism	Control	Trust
Control approach	Behavior-control (e.g., process compliance)	Outcome-control (e.g., delivery according to specifications)
Contract strategy and interaction	Stringent with frequent detailed reviews	Some level of freedom, with regular reviews

Professor Ralf Muller (Norway) spoke on 'Inter-organizational Networks of Projects'

Way Forward for Net Zero

- Renewables
- Carbon capture & Conversion of Liquid Fuel (Blue Coal Power Plant, Circular Economy)
- Energy Storage
- Hydrogen, Fuel Cells
- Technological Upgradation & Efficiency Improvement

Climate change is real, entire world has moved towards to Net Zero but transition should be gradual to avoid all round disruptions.

Way forward to Net Zero – Delivering Green Energy – from NTPC Presentation

Project risk management for large-scale complex solution projects

"The projects business of Siemens is so strong because with our risk management we have set the guard rails that transparently represent the risk structure of projects."

Centre for Excellence in Project Management (CEPM)

Centre for Excellence in Project Management (P) Ltd. (CEPM), formed in 1992 has 650+ clients covering public private sector, central / state government. Since 1992 it organises an annual global symposium on PM and it laid the scientific foundation of project management in India when it organised India's 1st international conference in association with UNDP. A foremost PM training and consulting company it has conducted 1000+ programs on varied aspects of project and program management. CEPMs portfolio includes:

- Annual symposiums on PM
- WPMF Meets
- Int'l PM Team Excellence Award competition (I-PMTEA)
- PM Knowledge Assessment
- Organisation PM Maturity Assessment
- Real time Project and Business simulations from UK
- Training & Consulting
- Published 14 books on PM

CEPM's flagship curriculum, Totality of Project Management (TPM) which has exhaustive coverage of entire PM processes from concept to closeout across 8 project life cycle phases is in line with NITI Aayog's recommendations for project management curriculum. TPM covers both hard and soft skills and addresses some of the specific issues relevant to India. The ISO/IEC 17024:2012 accredited Certificate in Project Management (CIPM) credential that is offered and administered by i2P2M is aligned to the TPM curriculum.

International Institute of Projects & Program Management (i2P2M)

i2P2M, a not for profit company formed in 2008 is foremost in imparting education to build Knowledge, Competency and Leadership with application at workplace. i2P2M's 6 day Executive Diploma in Project Management (EDPM) Fast Track program has 360 coverage through 4 levels covering TPM, Advanced Risk Management, real-time simulations from UK, Wisdom sharing by global experts and an Action Plan.

i2P2M is:	Revolutionising Management	Transforming Learning to Competency Development	Application at Workplace Measuring Benefits Documenting Best Practices
-----------	----------------------------	---	--

EDPM Fast Track builds competencies resulting in measurable benefits

NITI Aayog has recognised i2P2M as one of the 4 global PM certification bodies. The Certificate In Project Management (CIPM) credential is awarded by i2P2M, which is the only Indian Company with ISO/IEC 17024:2012 accreditation for its Certificate In Project Management. i2P2M has a MoU with CMDP of Govt. of Philippines signed on July 7, 2023 in Manila to make EDPM and TPM as standards for Philippines.
