World Project Management Forum

Few Major Excerpts of WPMF Charter

'The Charter of the World Project Management Forum (WPMF) is for a continual exchange of ideas to address major concerns and solutions through best and next practices deployed in the front end of vision realisation i.e. project creation'.

'Vision realisation should balance economic, social and ecological considerations. The finer aspects of the vision realisation must be integrative in meeting demands of the present without compromising the ability of future generations to meet their own needs'.

'This front end or macro aspects of project management i.e. project creation is the master key for success of vision realisation. Obviously, this phase of project creation has a major impact on achieving both tangible & intangible benefits as initially visualised'.

'The World Project Management Forum (WPMF) will also catalyse the development of a 'Project Mindset' to deal with uncertainties by taking a 'holistic' global view keeping in view Vasudeva Kutumbakam – the 'whole world is a family' which is a reality today in an increasingly global inter-connected world with multi-cultural complexities which can be leveraged'.

'Society is facing many challenges in today's dynamic, unpredictable and disruptive Volatile-Uncertain-Complex Ambiguous (VUCA) world that requires a global understanding and convergence of the cyberspace, the physical space and bio space given the context of fourth industrial revolution in thinking amongst stakeholders'.

In last 33 years we have exposed millions globally regarding the importance of good planning and better deliveries for country's development through both print and electronic media.

Lok Sabha and Rajya Sabha TV Channels aired our interviews. ET Media covered our events extensively. Our interviews and various events have been covered 100+ times in the national daily newspapers and in magazines. 100,000+ professionals were exposed to project management. 1000+ top notch companies, 400+ foreign speakers and participants and 300+ Indian experts have been associated with our programs.

*Since we floated the idea of **WPMF** in March 2019, we have received very enthusiastic response in initiating the WPMF Meet from over 150 professionals across the world. Some early responses were :*

I am very excited about your vision, (WPMF) Adesh ! (Andy Kaufman, USA)

This appears to me as a timely initiative. I fully support your initiative (WPMF). (Gilles Caupin, France)

I think this initiative is timely, for at least three reasons.

One: It is clear and becoming even clearer that society is facing many challenges that require a global response. Over 25% of GDP is delivered via projects. (Peter Morris, UK)

I consider your idea exceptional and intriguing, Adesh (Tomasz Wrzesiewski, Poland)

During 1992 - 2022, we had support from many Central Ministries and States, some of them are:
