(CrtPRM) Online Exam**

From 2011 to 2019 EDPM was a very successful classroom program. EDPM 2020 was the first Online program and was concluded with astounding success. EDPM program is the most unique part time executive Diploma program globally as it transforms learning to measurable results. The knowledge gained by participants is substantial and in last 10 years 100+ organisations have benefitted from the experiential learning through this program.

Completion Criteria for EDPM Hybrid program

A participant is required to go through 4 Modules based on online delivery. It would amount to 70 hours of learning, 20 hours of Homework and 25 hours in writing 4 Reports - one report after each module outlining the key takeaways plus areas for their improvement at workplace plus a Final Composite Report of the learnings of the entire EDPM Online program and few recommendations for improvement in participants own workplace.

Methodology

The program is available across all the continents. The participants need to attend the online program which comprises of four, Modules. A participant can choose their local time zone to suit their own convenience.

Module 1 and Module 2 are both followed by an objective, multiple choice Certification Exam on the 4th day which must be cleared. Module 1 has a 2.5 hour exam and Module 2 has a 2 hour exam. The timing to begin the exams shall be 10.30 am as per the time zone chosen by the participant. There are no exams in Module 3 and 4. Re-exam up-to 3 attempts can be scheduled in case if one fails in the first attempt.

Module 3 has two real time computer based simulation programs on Managing Stakeholders and Project Leadership providing experiential learning. Participants gain 4 years of experience in 2 days.

Lectures of various modules will be video recorded which can be viewed multiple times by the participants to clarify their doubts.

Questions can be asked by the participants during and after each session of a module. As it is a global online program, the video/audio/text response will be provided to the participant and will be uploaded in the Q&A library and can be viewed by all of the participants.

After each Module, it is mandatory for a participant to electronically submit a report on i2P2M cloud space highlighting the Takeaways from each of the 4 Modules within 7 days.

The Composite Final Report (CFR) is to be submitted electronically by a participant within 15 days weeks of completing Module 4.

Benefits

- ▶ 2 days out of 10 days are devoted to carry out experiential learning through real time simulation programs. **One gains 4 years of experience in these 2 simulations.** These simulation programs are used in top 20 business schools and leading companies. The average cost of doing these simulations in business schools is close to US\$3000 per person. For EDPM participants it works-out to be 1/6th the cost. **Great Value for Money.**
- ▶ Organisations will gain tremendous benefits by accepting recommendations as suggested by participants at the end of EDPM Online program.
- ▶ **The only Executive Education program across the globe awarding 4 major credentials i.e. CIPM certificate in project management, becoming eligible for CSPM credential in project management, CrtPRM certificate in project risk management and the prestigious Executive Diploma in Project Management.**
- ▶ **The only Executive Education program across the globe transforming Learning to Competency Development to its Application at workplace resulting in measurable outcomes.**

Module-1

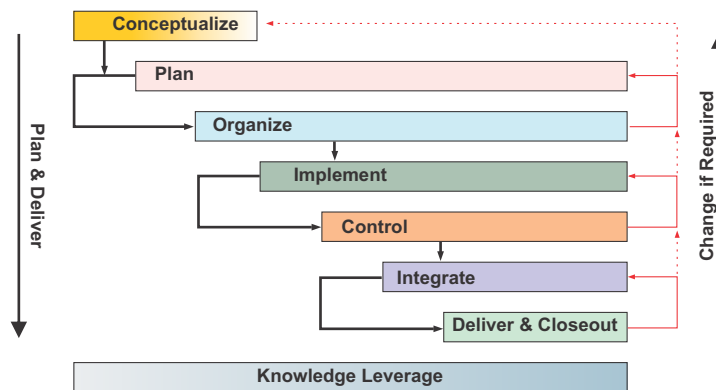

Understanding the Totality of Project Management (TPM) Leading to Certificate In Project Management (CIPM)

Being a global program participants can choose their local time.

Suggested Timings: 9.30 am to 5.30 pm inclusive of breaks

| **Batch B1** - 2 to 4 Sep (Fri to Sun) | **Batch B2** - 16 to 18 Sep (Fri to Sun) | **Batch B3** - 7 to 9 Oct (Fri to Sun) |
| **Batch B4** - 14 to 16 Oct (Fri to Sun) | **Batch B5** - 4 to 6 Nov (Fri to Sun) | **Batch B6** - 18 to 20 Nov (Fri to Sun) |

Totality of Project Management (TPM) covers 8 Project Life Cycle Phases, 36 Knowledge Areas and 119 Concepts.

TPM has eight Project Life Cycle (PLC) phases – Conceptualize, Plan, Organize, Implement, Control, Integrate, Deliver & Closeout and Knowledge Leverage. Each phase has been depicted using different colors of varying intensity showing the intensity of the work during that phase. Three additional Project Life Cycle phases Organize, Integrate, Knowledge Leverage were introduced first time globally.

Totality of Project Management (TPM) is most unique globally. Its additional 3 project life cycle phases namely Organise, Integration and Knowledge Leverage added to conventional 5 project life cycle phases used by other global PM associations.

CIPM Exam administered by International Institute of Projects and Program Management (i2P2M) Is divided in 4 independent sections to pass in addition to the minimum % marks for the entire paper in UNIQUE as against only one section only followed by all the global certification bodies. This ensures robustness of the exam testing knowledge of a candidate across the syllabus. The CIPM Examination fee varies from half to one fourth of the fee charged by the other global certification bodies.

Module 1 on Totality of Project Management is in line with NITI Aayog's recommendations for the project management curriculum.

Excerpts from NITI Aayog Task Force Report. : 'The curriculum to address following knowledge areas for project management and should consider the project from concept to commissioning encompassing all life cycle phases i.e. Conceptualize, Plan, Organize, Implement, Control, Integrate, Deliver/closeout and Knowledge Leverage".

2.5 hour Certificate In Project Management (CIPM) online exam will take place from 10.00 am to 12.30 pm.

Batch B1 (9 Sep), Batch B2 (23 Sep), Batch B3 (14 Oct), Batch B4 (21 Oct), Batch B5 (11 Nov), Batch B6 (25 Nov)

Certificate In Project Management (CIPM) is administered by i2P2M, which is the only Indian Company with ISO 17024:2012 accreditation in Project Management for it's Certificate In Project Management.

IAF - International Accreditation Forum

NABCB - National Accreditation Board for Certification Bodies under Quality Council of India (QCI). The nodal ministry of QCI is Ministry of Commerce and Industry, Government of India.

PM1: Understanding the Totality of Project Management (contd.)

“What makes Certificate In Project Management (CIPM) program world class is its comprehensive syllabus covering 8 project life cycles phases, 36 knowledge areas and 117 concepts with an extremely robust certification process. **I myself have gone through the CIPM and in my opinion, it should be a pre-requisite for all PM professionals globally.**”

- Prof. Dr. B. Nag, IIM Calcutta (2015)

“Certificate In Project Management (CIPM) is unique and should become **a must for professionals of an enterprise to create a common vocabulary**”

- Dr. Hiroshi Tanaka, President, Project Management Association, Japan and PM Advocate of JGC Corpn. (2007)

“This module should be taught to all government and corporate officials who are in any way managing a project

-Brig. Vikram Nagpal, IDS

**17000+ professionals across 600+ companies from 25 countries
have done Totality of Project Management. Some leading companies are :**

The training is started with an initial knowledge assessment Pre Test through CEPM's Project Management Knowledge Quotient (PMKQ) tool. After the TPM training we find an astounding improvement. For example, there was a 2.8 times improvement in the 393 participants of the EDPM 2020 and EDPM Online 2021 diploma program.

Average Score of 393 participants in CIPM Exam in %

Average Score of the 393 participants in Pre Test prior to start of Module 1

A participant will also be eligible to get certification from International Association of Project Managers (IAPM), Liechtenstein.

CIPM certification is recognised by International Association of Project Managers (IAPM). Depending upon the experience, one will either become **Certified Project Manager (CPM)** or **Certified Senior Project Manager (CSPM)** from IAPM by paying a small fee. It is a major additional global qualification for a participant.

PM2: Certificate In Project Management (CIPM) Examination (10.00 am to 12.30 pm at your local time)

For Batch B1 (9 Sep), Batch B2 (23 Sep), Batch B3 (14 Oct), Batch B4 (21 Oct), Batch B5 (11 Nov), Batch B6 (25 Nov)

CIPM exam is of 2.5 hours. Paper has 4 sections covering the 8 project life cycle phases. i2P2M administers the CIPM exam which is ISO 17024:2012 accredited. CIPM exam is the only PM exam globally with negative marking providing robustness to exam process. Exam has 150 multiple choice questions based on application of knowledge, scenarios and computations.

Report on Module 1

It is a must to submit the report outlining the key takeaway for applying to one's work place. This is one of the 16 Uniqueness of I/EDPM program where learning is applied to demonstrate measurable benefits.

Participants to upload their Module 1 report to i2P2M Cloud Platform **within 7 days of the completion of the module**

TPM Syllabus is in line with NITI Aayog's recommendation for project management which leads to Certificate In Project Management (CIPM) with ISO17024:2012 accreditation

Advanced Project Risk Management

Adesh Jain

Adesh Jain, Founder of World Project Management Forum (WPMF) and Chairman, i2P2M holds a Bachelor of Electrical Engineering from the Indian Institute of Science, Bangalore in 1965 and Masters of Engineering from Canada. He worked in the fields of artificial intelligence and large scale computing in North America.

In 2005, he became the first and is till date, the only non-European to have been President of International Project Management Association. In 2006, he became the Honorary Chairman of China Construction Project Management Committee (CPMC). He was invited twice to give presentations at the NASA PM Challenge Conferences in 2010 and 2012 on 'Breaking boundaries - the key to innovation' and 'Awakening of project consciousness through stakeholders buy-in' respectively. Recognizing his global contribution in project management, Government of Turkey released a postal stamp in his honor in November 2010. ***In short, he is a visionary leader shaping the PM profession globally.***

Projects are taken up to build the future and have many uncertainties. Risk is, therefore, at the center stage of managing projects. Risk management is 50% of project management. Diverse interests of stakeholders contribute significantly to project risks. Along with Advanced Risk management concepts some success stories in managing risks will also be covered in this module. As shown in Figure-1, Risk Is Everywhere (RIE). Risk is uncertainty that matters.

**Risks are those
uncertainties that matter**

risks we take and risks we face
*Being proactive in risk is
least risky*

*Create new possible futures by viewing risks
- both threats and opportunities*

**Managing uncertainties
requires Risk Mindset**

The Advanced Project Risk Management covers :

- 4 types of Uncertainties - Stochastic (possible events), Aleatory (variability), Epistemic (ambiguity) and Ontological (blind spots) and their linkage to risks.
- Enterprise Risk Management Models - COSO, ISO 31500, IRM
- Risk Identification and Categorisation- Tools and Methodologies
- Risk Evaluation and Quantification
- Possible Risk Response and Mitigation Strategies
- Risk Appetite, Thresholds, Attitude and Culture
- Risk Control Processes
- Complexity of Projects and Emergent Risks in the age of Technological Disruptions

The training is started with an initial knowledge assessment Pre Test through CEPM's Risk Management Knowledge Quotient (RMKQ) tool. After the ProRM training we find an astounding improvement. There was a 2.7 times improvement in the 393 online participants.

**PM2B: Certificate in Project Risk Management (CrtPRM)
Online Examination (3.30 pm to 5.30 pm)**

Batch B1 (11 Sep 2022) **Batch B2** (25 Sep 2022)
Batch B3 (16 Oct 2022) **Batch B4** (23 Oct 2022)
Batch B5 (13 Nov 2022) **Batch B6** (27 Nov 2022)

Since the launch of CrtPRM credential in 2011, as on date there are over 1200+ professionals from 149 companies across all sectors with CrtPRM certification. India is one of the few countries where we have a specialised certificate in project risk management.

Advanced Project Risk Management - Some Feedback

The commitment of the faculty especially Dr Jain is commendable.

Nanda Nandan R
Dgm (Quality Engineering)

Understanding The Risk We Take, Risk We Face & Risk is Every where through Advanced Risk Management was an Eye Opening. It has totally changed my perception of risk management. Our guru Adesh Jain, sir, thank you immensely for teaching us with passion.

Rajani B, AGM (Method Planing)

Wow ! World class and great experience of our Guru is unparalleled.

Sundaresan S
DGM (Service), KGF Complex

Sri Adesh Jain is benchmark for his attitude, his discipline, his timeliness, at this age is something really great.

Raghnath A
DGM (M/c. Shop), Mysore Complex

Best exposure in the field by the best guru globally.

Krishnamurthy S
DGM (Corporate Materials)

Mr Adesh Jain, Imparting PM awareness is not a profession for him but a "Mission".

Gp Capt Mukesh Sharma
Air HQ (VB), HQ IDS (MoD)

A lot of passion was displayed by Mr. Adesh Jain on concepts on Risk Management Processes.

Capt (IN) Sandeep, Naval HQ,
Indian Navy

Sir you have made the experience of this module a 'WOW' experience, an experience never experienced before.

Maj Priyanshu Goyal, Planet, HQ IDS, HQ
IDS (MoD)

It was just superb program on project risk management. must for all project professionals.

Brian Ernest Regalado, Founder and Lead
Educator, Philippines

Our Guru Shri Adesh Jain sir who is & will always be pioneer in this field across the Globe.

P R Parate, GM (PJ), Refinery

My vision has certainly widened. All regards and compliments to our guru for enhancing my understanding.

Satish Jha, General Manager (CP),

Coverage of project risk management is superb.

Saurabh Ahuja, AGM-
Refinery EDC

I feel Proud to say Mr Adesh Jain is my GURU, and I am his disciple if he accepts.

Shaji P J, General Manager
(Water Transport), KMRL

The one great take away of the session was a quote from our guru Adesh Jain that "If we can not control the tides, we can learn to build better boats".

Sajith V, Senior Deputy General Manager
(Signalling & Telecom), KMRL

In 12 hours, we learnt almost 100 hours of risk management. Thank you Sir and a BIG salute to you. You are a great person. May God bless you, Sir.

Rekha Prakash, General Manager

PM3: Computer Based Real Time Simulation Programs

Guy Giffin

With specialisation in simulating the challenges of leading complex projects, Prendo's simulations are used at many of the world's top business schools, including Columbia, IMD, INSEAD, MIT Sloan, Oxford/Saïd and Wharton.

Guy Giffin, Director, Prendo Simulations will be speaking to participants. Guy has delivered hundreds of simulation workshops in over 30 countries around the world, with organizations including: Bechtel, EDF Energy, Gazprom, Goldman Sachs, IBM, Morgan Stanley, Oracle, Petrobras, Shell and the United Nations. He teaches on various MBA, EMBA and executive programs at Cambridge, Columbia, MIT Sloan, etc.

Why Simulate?

Online education combined with real time computer based simulation programs is again one of the major strengths of I/EDPM program in making learning effective and meaningful to organisations.

Leaders face many challenges in the modern world, including working with increasing levels of complexity and ambiguity, accelerating levels of change and uncertainty, as well as ongoing pressure to act responsibly and ultimately, to create value. The most powerful learning method to address these many challenges is advanced simulations, because participants must take the decision and see the consequences.

Lectures & slide presentations, books, articles, & papers are effective ways of sharing information. Case study discussions go further, but still don't force participants to take decisions or see the consequences. The next generation of leaders in particular are increasingly combining learning to competency development to implementation at work place to make their organisation competitive. i2P2M provides this platform through it's I/EDPM program.

**People learn by doing**

Complex skills can only be developed by (a) making decisions or taking actions, (b) experiencing the consequences, and then (c) figuring out what happened and why, and then repeating the process, i.e. practicing.

**Simulations are better than real world experience**

In contrast with using real projects and real organisations as their practice grounds, when mistakes can be very expensive, simulations are faster, lower risk, lower cost, and crucially, more effective because they make the link between cause and effect easier to see.

**Simulations are essential in many professions**

Pilots, military strategists and surgeons, for example, have long understood the importance of simulating their activities in order to improve their performance and reduce the risk of failure in the real world.

Three to five participants form a Team. The aim at the end of each simulation program is to excel in Key Performance Indicators (KPI). i2P2M Trophy will be given to one of the expected 60 teams which scores the highest marks in the 2 Simulation programs.

PM3A: Real Time Simulation on Managing Stakeholders (virtual teams)

Batch B1 (15 Sep), **Batch B2** (28 Sep), **Batch B3** (20 Oct), **Batch B4** (27 Oct), **Batch B5** (17 Nov), **Batch B6** (1 Dec)

Virtual EDPM online Program

Prendo was commissioned by Shell to design and develop a simulation of how typical spectrum of stakeholders behave during a major project. The simulation brings to life the universal leadership challenge of maximizing support across a range of parties who have different interests, agendas and motives. The simulation is used across the globe in numerous industries.

It provides challenge in balancing of People (settlement, schools, jobs), Economic (project profit, taxes) and Planet (rainforest, parrots, river pollution). This online simulation is used in managing stakeholder effectively. **Participant's gaining experience of 1 year in just 1 day.**

Key topics

- general management and strategy
- global and cross-cultural leadership
- ethical leadership and CSR
- stakeholder management
- influencing skills and networks
- communication strategy

Learning outcomes

- develop effective stakeholder consultation strategies
- develop detailed stakeholder analyses
- map & use influence networks
- understanding multi-cultural dynamics
- create a communication plan that reflects cultural preferences
- analyse the full range of human interests & motives
- balance conflicting stakeholder interests
- balancing People (settlement, schools, jobs), Economic (project profit, taxes) and Planet (rainforest, parrots, river pollution)

PM3B: Real Time Simulation on Project Leadership (virtual teams)

Batch B1 (16 Sep), **Batch B2** (29 Sep), **Batch B3** (21 Oct), **Batch B4** (28 Oct), **Batch B5** (18 Nov), **Batch B6** (2 Dec)

Virtual EDPM online Program

(80 team, 3 to 5 persons per team expected)

Prendo's 'SPATIUM' real time simulation on Project Leadership provides an intense, risk-free experience of managing a complex project.

It is a mind boggling experience that one goes through. In 6 hours, you gain 3 years of experience. **The "3 years in 6 hours" real time simulation** will take you across all the project life cycle phases which in real live situation will take 3 years from planning to completion. Often, a team member does not get an opportunity to work from the stage of conceptualisation to project closure. Great opportunity for the participants of IEDPM program. Top business schools and world fame companies regularly use these simulation programs to build competencies in managing projects and programs.

Developed in collaboration with the Major Projects Association, Prendo's Spatium simulation presents participants, typically organised in teams, with a challenging mission. It is an intense, but risk-free experience that will help them develop skills in the topic areas below.

Key topics:

- advanced project management
- implementing strategy
- managing risk & uncertainty
- stakeholder management
- teamwork
- complexity & ambiguity

Learning outcomes:

- define project success
- manage the early stages of a project
- develop an optimal contract strategy
- analyse and manage risks
- judge stakeholder-driven trade-offs
- juggle & integrate multiple disciplines
- plan & control a project
- take decisions in a complex scenario

Three compelling reasons to use Simulation programs in I/EDPM

INSIGHT - the simulations ensure profound understanding by giving users chance to see 'both cause and effect'.

FORESIGHT - the simulations provide hands on experience to reduce the risk of making mistakes in the real world.

EFFICIENCY - the simulations provide accelerated experiences ensuring fast, effective and accessible learning.

Prendo's simulations are used by many global organizations and leading business schools, including:

Some comments the from the participants

The simulation exercise is a class of its kind never experienced before. I would like to thank i2P2M for including simulation exercises. It is a great experience. I2P2M is the only company in the world which includes real time simulation programs. Hats off to them.

It was a life time experience, having fun as well as learning. It gave many insights and sharpened my opinions. It also opened many a closed windows.

Awesome and creative way of learning and understanding from the stage of formulation to completion.

Report on Module 3

It is a must to submit the report outlining the key takeaway for applying to one's work place. This is one of the 16 Uniqueness of I/EDPM program where learning is applied to demonstrate measurable benefits.

Participants to upload their Module 3 report to i2P2M Cloud Platform **within 7 days of the completion of the module**

Module-3

Computer Based Real Time Simulation Programs

Superb. Real time simulation program was once in a life time experience in dealing with real time scenarios in handling project complexities from planning to completion. Gained 4 years of experience in just 2 days. Also the last session covered by **Mr. Adesh Jain on Organisation Project Management Maturity Assessment was thought provoking** and perhaps the only one available in India. It will filter out true Project oriented Organization from those who pretend to be.

P R Parate, GM (PJ)
Indian Oil Corporation Limited

The simulation exercise is a class of its kind never experienced before. I would like to **thank i2P2M for including simulation exercises.** It is a great experience. I2P2M is the only one in India which promotes real time simulation programs. **Hats off to them.**

Kamal Devan, DGM (E&M)
Kochi Metro Rail Limited

First time experience. Such Simulation tools should be introduced in all PSUs and Government organisations to improve the efficiency and leadership qualities.

Sajith V, Senior DGM (Signalling & Telecom)

24 months were shortened to 4 hours made us look ahead and visualise the outcome without doing the project. A real feeling of the triple constraint was visible.

Shaji P J, GM (Water Transport)

Superb and mind boggling. Very Enriching Experience, a must for all level of officers to create an army of project managers and leaders for implementing the projects in time without cost overrun taking all the stake holders on board, which is prerequisite for success. It will **enable us to be a world leader overtaking China and realizing the dream of "Atmnirbhar" India.**

PD Rathi, General Manager (M)
Northern Coalfields Limited

It was a life time experience, having fun as well as learning. It gave many insights and sharpened my opinions. **It also opened many a closed windows.**

Satish Jha, General Manager (CP)

Real time challenges were encountered and negotiated within timelines provided and it was a superb learning experience regarding vital aspects of Project Management. **Gained 4 years of experience in just 2 days.**

Suchandra Sinha
Chief Manager (E&M)

Overall achieved 4 Years' experience in just 2 days.

Nandan Kumar Choudhury
Assistant Manager (G)

It should be mandatory for middle-level management.

Vimal Kumar Shrivastava
Deputy Manager (M)

Very innovative & life time experience. I have gained 4 years in just 2 days. Mind boggling experience. A rare opportunity to plan and execute and the team was intact without any change.

Mallikarjuna Reddy C V

Real time simulation program has been the best experience ever I had experienced. **Must for everyone.**

Ramesh Kumar Raju
AGM (Defence R&D)

Awesome and creative way of learning and understanding from the stage of formulation to completion.

Vijeesh MV
Assistant Manager (IE)

The two simulations, were an absolutely new learning. Just these two simulations make this program worth attending. **I never imagined they can be used to simulate people interactions also.** This was a completely new learning.

Gp. Capt. Mukesh Sharma

Simulates the challenges of complex projects which we haven't experienced thus far. It gave a realistic and dynamic experience of running a project. **Great learning value.**

Capt. (IN) Sandeep

This was first time experience of mine as a project manager. **It was a true learning experience for me.** All aspects were covered in detail in the virtual program.

Maj. Priyanshu Goyal

PM4: Experience Sharing Sessions (ESS)

Peter R. Easley Esq (USA) - The World Bank, Washington DC. Former Deputy Chief Corporate Procurement & Head of Sourcing and Category Management. The World Bank, Washington DC and a well known authority on Procurement and Contracting management. He is widely traveled with rich international experience.

Dr. Hans Stromeyer (Germany) is co-founder & president of the International Association of Project Managers (IAPM). Before that, he was Director of Science Services and International Programs at Spacehab, Inc. in Houston. The company developed and operated manned modules in the payload bay of the American Space Shuttle. He was recipient of the price of the German Project Management Award as well as the Award of Space Missions D1 & D2.

Prof. Dr. Ralf Müller (Norway) is Professor of Project Management at BI Norwegian Business School and Editor-in-Chief of the *Project Management Journal*®. He lectures and researches in leadership, governance, and organizational project management. His research appeared in more than 250 academic publications. Prior to his academic career, he spent 30 years in the industry.

Oliver Maeckel (Germany) is Vice President and Partner at Siemens Advanta Consulting, Germany. He has been with Siemens AG since 1997. The focus of his current work is, in particular, the development and delivery of “first-of-its-kind” large-scale projects and especially the digitization of project business processes. He and his team have supported more than 200 major and mega projects.

Topic: Project Mindset

The word ‘Project Mindset’ was coined and introduced by Adesh Jain in August 1999 in Stockholm, Sweden while giving a one day seminar on “Project Mindset – the Key to Competitiveness”. In last 20 years, lot of development has taken place in refining the conceptual framework of ‘Project Mindset’. A thought provoking presentation will be given to the participants with the latest conceptual framework of role of Project Mindset in managing projects.

Veikko Väilä (Finland) has provided management consulting services for thermal & nuclear power projects, pulp & paper plant projects and mega-size infra projects including harbor, metro, airport, rail- and motorway projects. Veikko is a member of the Advisory Board of the Climate Leadership Coalition, the largest non-profit climate business network in Europe. He has lived in 5 countries and worked in more than 50 countries.

Topic: Procurement and Contracting

At the end of this module participants will have a good understanding of procurement and contracting and its impact on success of the project. The Candidates should be able to: (1) Discuss procurement and contracting processes and principle. (2) Explain and critically evaluate the contract administration issues including contract terms & change order management.

Topic: Hybrid Project Management

Project Management is in a period of adaptation to our VUCA world. Today, projects aim to be more responsive to unclear customer demands. This development was spearheaded by the Agile Manifesto proclaimed by leading software developers in the USA. Scrum and other frameworks have rapidly gained attraction worldwide, prompting traditional projects to include agile mindset and methods. Hybrid project modeling allows combining classic and agile elements intuitively.

Topic: Governance through Organizational Project Management (OPM)

Organizational Project Management (OPM) extends and integrates the distinct views of projects, programs, and portfolios and describes a governance approach to all project-related work in an organization. That includes the organizational and business-related integration of projects, programs, and portfolios. Project-oriented organization structures. OPM model integrates 22 of these themes for effective governance of organization-wide project work.

Topic: Mega projects – raw diamonds or raw eggs?

Mega projects are raw eggs, developed well they will change to be raw diamonds instead. The number of large projects continues to grow over the last decades. Nonetheless, these projects are more than often the first of their kind and therefore moving the final frontier. Scaling up things and working in this area is often risky due to many new situations and uncertainties. Planned creation and excellent execution, the eggs will become diamonds.

Topic: Climate Change and Sustainability

A large number of the world’s leading companies and financial markets have made up their minds: their money is on its way to a low-emission economy. This means that the market for low-emission products and solutions is growing, while the market for high-carbon products is stagnating and will soon shrink. Countries, companies and investors now have a once-in-a-generation opportunity to scale zero-carbon industries in the 2020s, to create prosperous growth and more resilient economies. The countries that create lucrative conditions and incentives for the new solutions will win big time.

PM4: Experience Sharing Sessions (ESS) contd.

Prof. Dr. Raphael Albergarias (Brazil) is an outstanding contributor in the project management. A globetrotter committed with excellence and organizational performance. Executive coordinator of doctorate and masters degrees in distinguished universities (Sorbonne, Paris, Bordeaux) in the fields of Project Management, Marketing and Finance. 17+ years of experience. Consultant, professor, Investidor and actuality as IPMA Brasil President and Region LATNET Director for IPMA. Global VP of International Institute of Education, a consortium with top universities.

Michael Roberts (USA) is an IT industry professional with more than 20 years of experience project management and taking digital products to market. His industry certifications include those from Cisco, CompTIA, Microsoft, ICAgile, and the Scaled Agile Framework. With his experience as a technology executive, he's guided many companies to successful IT and software projects, and become a skilled strategist

who transforms strategic plans into workable solutions and benchmarks performance against key operational targets/goals.

Antonio Nieto-Rodriguez (Belgium) is an Author of the Harvard Business Review Project Management Handbook, the featured HBR article The Project Economy Has Arrived, and four other books, Antonio is the creator of concepts such as the Project Economy and the Project Manifesto. His research and global impact in modern management have been recognized by Thinkers50. Fellow and Former Chairman of the Project Management

Institute, he is the founder of Projects&Co and co-founder of the Strategy Implementation Institute. He is a member of Marshall Goldsmith 100 coaches.

Randall L Englund (USA) as an author, speaker, educator, trainer, professional facilitator, and consultant for the Englund Project Management Consultancy delights in sharing his passion for project, program, and portfolio management. He is co-author of seven books in the business and management field. He received the Distinguished Contributions Award from PMI.

Professor Dr. Hiroshi Tanaka (Japan) is in the forefront of global PM community over the past half century. He is professor of strategy and project management. Is a well-known PPM trainer covering Asia, Africa, Europe and Latin America. Is the founder and past president of Project Management Association of Japan (PMAJ).

Topic: The BANI scenario and the New Generations in PM

How to deliver a project in a Brittle, Anxious, Nonlinear, Incomprehensible scenario? BANI is a logic that determines how your personal posture should be from now on. In addition, there is a great sense for companies to incorporate this philosophy and internalize it from strategic planning to their Leadership style. Welcome to the chaotic world, where conditions are not simply unstable, they are chaotic. Trying to control them, interpret them or even avoid them is no longer possible. The great competitive advantage of a professional or company, now, is knowing how to react to everything that happens. Some will be frozen waiting for a benchmarking to emerge.

Topic: AI AND ML: How to future-proof your PM career

Artificial Intelligence (AI) and Machine Learning (ML) are two huge factors that is changing technology and business. But what is their impact on you? What will your job look like five years from now? Will it even exist in five, 10 or 20 years? And what will happen to the organization and industry you work for? We will discuss the definitions of these two terms, how they impact business and workers, and what things project managers can do today to prepare for the future.

Topic: The Project Economy Has Arrived, and Why Project Management Had to Be Reinvented

Today, about 70% of projects fail to deliver their objectives. Considering that every year approximately 48 trillion US dollars are invested in projects, we fail to deliver trillions of benefits, value, and impact in organizations and society at large. If we increase our success ratio from 30% to 60%? Just imaging the amount of value that we would be adding to the world, approximately the GDP of China in extra benefit. To achieve this incredible goal, project management and projects managers will need to reinvent themselves.

Topic: Environments and People Skills that Improve Organizational Performance

Creating excellence in project management occurs when sponsors appoint appropriate project leaders, and they apply methodologies, viewpoints, insights, and leading practices to optimize project-based work. Organizational maturity requires that leaders reduce organizational "toxins".

Topic: Agility in Corporate Enterprises Realized by Applied Project Management

COVID-19 pandemic, VUCA/ BANI environment, global sustainability commandment, and disruptive technology have changed the landscape of industry and society. Project management needs to respond to this global transition.
